DETOURS:

- A new traffic pattern has been implemented for drivers on westbound I-395 and for those drivers entering I-395 from the Downtown Miami area. Drivers on westbound I-395 will be diverted to new bridges after passing Biscayne Boulevard. Drivers heading north on I-95 will now exit on the right side of the roadway and those heading south will exit to the left. Drivers heading west to SR 836 will continue straight.

Drivers in the Downtown area will now have more options to access westbound I-395 via the new entrance ramp located at North Miami Avenue. Drivers on NE 13 Street will continue straight across NE 1 Avenue and North Miami Avenue to access the new ramp while drivers heading north on NE 1 Avenue will turn left after passing under I-395. Drivers will now also have access to the new westbound I-395 ramp by turning right at a new signalized intersection after passing NE 14 Street. This new traffic pattern will allow the contractor to remove the existing eastbound I-395 bridges to begin foundation construction for the new, higher capacity I-395 that will enhance safety, mobility, and access.

- A new traffic pattern has been implemented for drivers on southbound I-95 heading to eastbound I-395. Drivers on southbound I-95 will continue to use exit 2D and be diverted to the new eastbound I-395 bridges. Drivers wanting to continue to the MacArthur Causeway can stay left onto mainline I-395, and those wanting to exit at NE 2 Avenue or Biscayne Boulevard will now use exit 2B on the right. Drivers on northbound I-95 heading east on I-395 will now need to merge to the left after entering the new I-395 bridges. To view a map of the new traffic pattern, please [CLICK HERE](#).

Electronic message boards and other signage will be in place to alert drivers to the new pattern.
